

Upute za izradu mobila

Mobil je savršen za umirivanje naših najmanjih. Ovdje smo složili upute kako ga izraditi kod kuće.

Za izradu ti je potrebno:

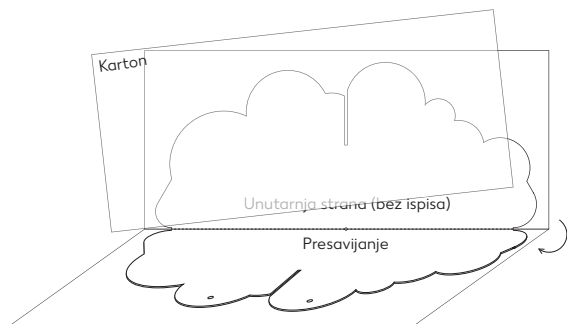

- pisač
- 2 x DIN-A4-Karton (250-350g/m³)
- škare
- ljepilo
- konac
- igla

Najprije ispiši pojedinačne komponente u omjeru 1: 1 na A4 kartonu, a zatim slijedi detaljne upute uz koje ćeš jednostavno izraditi šareni ukras za svoje dijete - uz malo truda do velike Kuniboo® zabave!

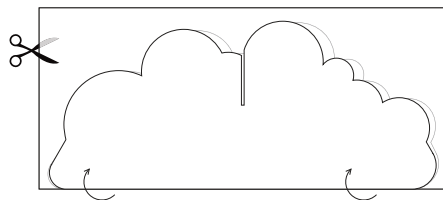

Upute za izradu mobila

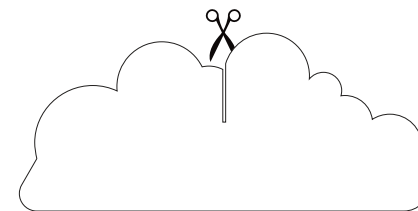

- ① Na početku presavij **1. oblak** i umetnite karton (unutarnja strana bez ispisa) po iscrtanoj liniji.

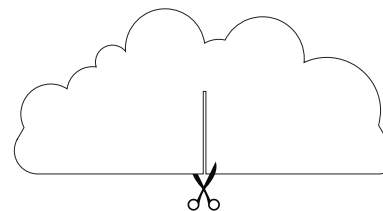

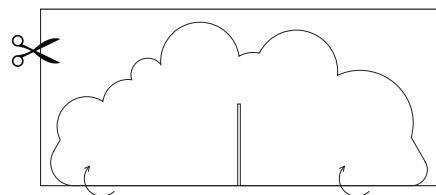

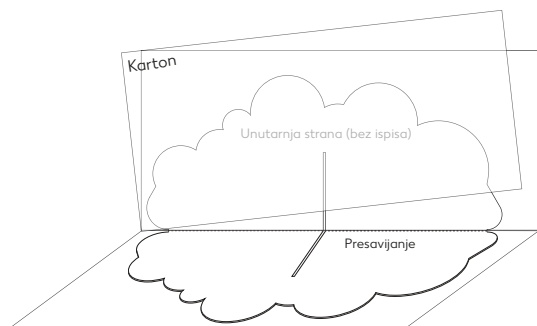

- ② Oblak nalijepi na karton. Nakon toga **1. oblak** je spreman i možeš ga izrezati.

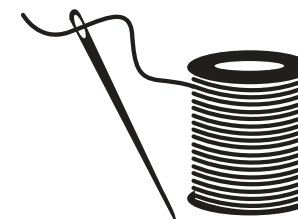

- ③ Izreži utor.

- ④ Za **2. oblak** ponovi korake 1-3.

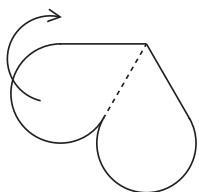

- ⑤ Konac izreži na 5 dijelova od 20 cm (4 za kišne kapi + 1 za Kuniboo®)

- ⑥ Izreži velike i male kapljice te ih presavij po iscrtkanoj liniji.

- ⑨ Kuniboo® presavij po iscrtkanoj liniji, zalijepi i izreži.

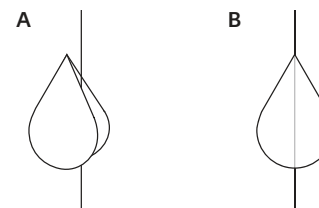

- ⑦ Pričvrsti kapljice na četiri konca (2 male i 1 velika kapljica po koncu).

- ⑩ Sada Kuniboo® možeš pričvrstiti na konac, a nakon toga i na 1. oblak.

- ⑧ Kapljice presavij oko konca (A) i nakon toga ih zalijepi (B)

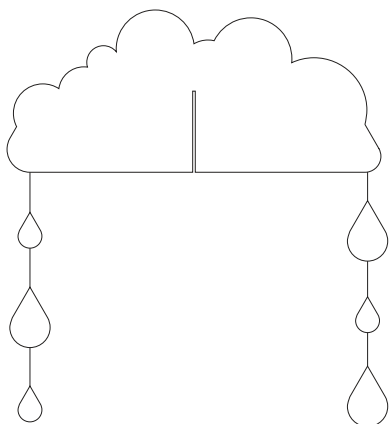

- ⑪ Pričvrsti konce s kapljicama na 1. oblak. Prilagodi duljinu konca i odreži ga po potrebi.

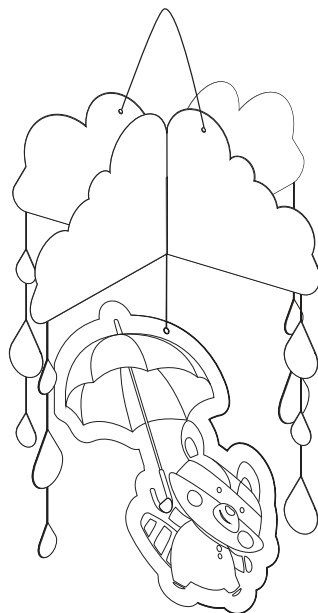

Upute za izradu mobila

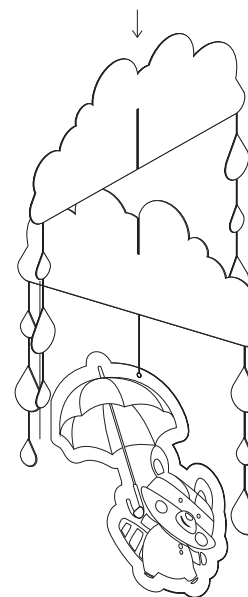

- 12 Za 2. oblak ponovi postupak s kapljicama kiše.

- 14 Posljednji korak: kroz oznake na 1. oblaku provuci konac, prilagodi mu duljinu - i tvoj mobil je gotov.

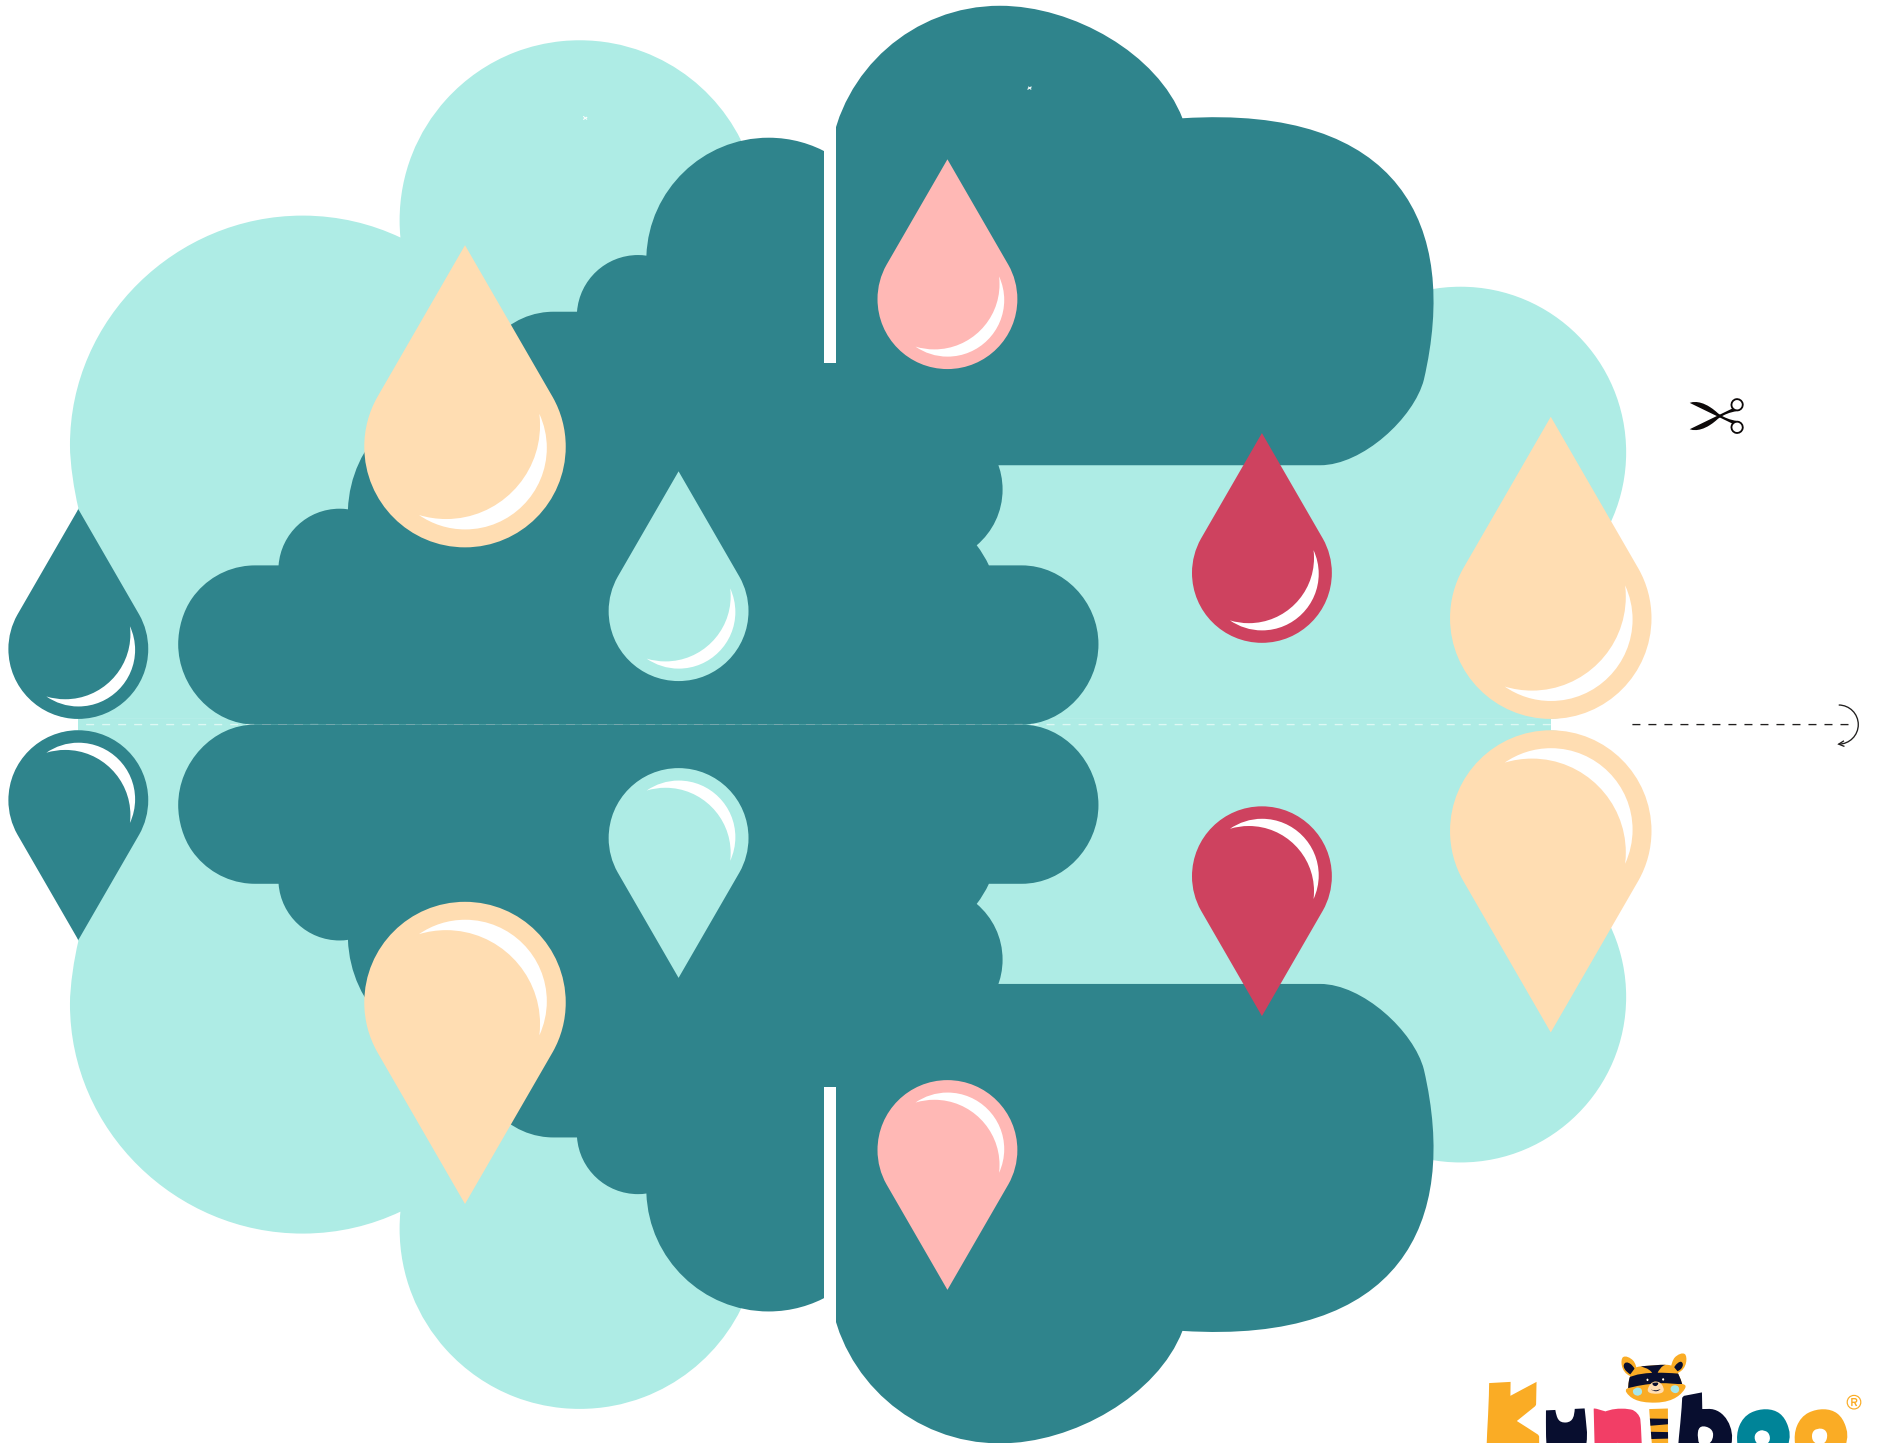

- 13 Spoji oblake preko utora.
